Excellence

Jewellery Store Order Processing System

- "DDMas" is a glamorous jewellery store which purchases and sales jewellery items .
- Jewellery item including necklaces, rings, chains, pendants etc (for both men and women) of different metals like gold, silver, platinum are imported from different branded companies like Nakshatra, PCJ, Kih, Vouge, Tanishq etc.
- Every Jewellery item is associated with a batch code, unique product (UPC), Name of the product, Cost To Showroom, Company Price (Maximum) to sell the product, fixed price(return price for customer)Metal Used , gems used (Diamond, Pearls etc),Purity Measurement (in %),Tax on product, Special remarks about product.
- Showroom has list of Suppliers from whom products will be purchased. One Supplier can have franchisee of one company.
- Showroom places order to suppliers, details of order like order date, product to order, quantity to order should maintained and updated while receiving the order.
- Showroom reorders the product when stock quantity is below reorder level of product.
- Showroom can also cancel the orders.
- Products which are not getting place in the market are returned back to the supplier after deducting service charges.
- Every sale transaction will maintain details like date of sale, product to sale, quantity to sale along with the details of customer like customer name, contact, and address.
- Customer can return products at the fixed price of product decided by company. These price keep on revising and showrooms are informed the same by circulars, emails or courier.
- Showroom maintains a catalogue for all the products supplied by different companies to display them to customers with product details mentioned above. A catalogue can be refined on the basis of :
    - Type of Item(Chain, Necklaces etc)
    - Company(Nakshatra, Vouge etc)
    - Metals(Gold, Silver etc)
    - Gems Used(Diamond, Pearls etc)
    - Gender (Men , Women)
    - Price Range
