Aryan College

Web Technology

<u>Unit I:</u>		INTERNET
1.	What is splash page?	[2017,2015,2014]
2.	What is DNS and how it is useful?	[2017]
3.	What are cookies and sessions?	[2017,2013]
4.	What is web server?	[2017]
5.	What are the difference between web designing and web enabling?	[2017]
6.	What is data encryption?	[2017,2014]
7.	What is FTP?	[2017,2015]
8.	Discuss the life cycle of an applet?	[2017,2016,2015,2014]
9.	How do ensure the security on web?	[2017,2014]
10.	What are different types of transmission protocol? Write a note on the	reading and multithreading?
		[2017]
11.	Write short note on:-	[2017]
	a. Mobile computing	[2017,2016,2013]
	b. Client server network security	
	c. Firewall	[2017,2016,2014,2013]
	d. Traditional v/s electronic application	[2016,2014]
	e. Advantages of internet	[2016]
	f. Architecture of web server	[2016]
	g. Internet protocols	[2016]
	h. Network security and Firewalls	[2016]
	i. W3C consortium	

12.	What is a web browser?	[2016,2014]
13.	What is E-commerce?	[2016,2014,2013]
14.	What is a website?	[2016]
15.	Define the term URL and give example?	[2016,2014]
16.	What are the prime functions of search engine?	[2016,2015]
17.	Define the term multimedia?	[2016]
18.	What is WWW and how it is used in E-commerce?	[2016]
19.	Discuss E-commerce framework. compare and contrast traditional v/s. E-business?	[2016,2013]
20.	What is a key image?	[2015]
21.	Explain encrypted document?	[2015]
22.	Define homepage?	[2015]
23.	Explain escape sequences?	[2015]
24.	Difference http and telnet?	[2015]
25.	Explain E-mail addressing?	[2015]
26.	Write the features of ISP?	[2015]
27.	Explain DNS .how are domain organized?	[2015]
28.	Create an applet which can display a circle .filled with different colors after each 10 se	conds? [2015]
29.	What are the advantages of JPEG image?	[2014]
30.	What is ISP and what are its functions?	[2014]

Aryan College/MSc-IT sem1/Web Tech./2017

Aryan College

31. Discuss in detail the functions of search engine. list and describe various searching tools for refinement of search criteria?

[2014]

32.	Write a detailed note on e-commerce framework. How it is different from traditional business list	t.the
	modules of hypothetical book store online business and name of the technologies to be used in t	this e-
	commerce web site?	[2014]

33. How do we pass parameters to applets Illustrate using an applet example? [2014]
34. How do you evaluate a web document foe effectiveness, usability and efficiency. Discuss the site design principles and application development life cycle for e-commerce? [2014]
35. What is web container? [2013]

		[===]
36.	Why a session object is considered more secure than cookies?	[2013]
37.	Describe various features of DOM?	[2013]
38.	What is difference between web designing and web enabling?	[2013]
39.	What is EDI ?discuss its structure?	[2013]
40.	What is script language and how many types of scripting in web technology? explain with suita	able

Unit II:	T 7	• • •	T 1	r

Unit II.	\mathbf{U}	m		۰.

example?

HTML

[2013]

1.	What is the use of DHTML?	[2017,2016,2014]
2.	What are different style sheet we can add to make a web page dynamic?	[2017,2013]
3.	Discuss different element of table in HTML?	[2017]
4.	How two web pages can be linked?write an HTML code for showing the use of multim	edia applications?
		[2017]
5.	Define hypertext and HTML?	[2016]
6.	What is a markup language ?how are images ,tables, forms, and frames, used in HTML	? [2016]
	explain with syntax?	[2016]
7.	Difference between GET and POST method. explain with suitable example?	[2015,2013]
8.	Explain the ACTION attribute of FORM tag?	[2015]
9.	What is embed images?	[2015]
10.	What is hypertext link?	[2015]
11.	What is a style sheet?	[2014]
12.	Write steps for adding animation on your page?	[2014]
13.	Demonstrate the usage of frame and tables in an HTML document? Illustrate the imag	e handling
	parameters of web page?	[2014]
14.	Difference between HTML and DHTML?	[2013]
15.	Short note:	[2013]
	a. Inline and external style sheet	

b. HTML forms

Aryan College

Unit III:

JAVASCRIPT

1.	Define primitive data types in java script?	[2017]
2.	What type of errors can be encountered in a JavaScript program?	[2017]
3.	Describe the data type conversion functions in JavaScript?	[2017]
4.	Write a script using JavaScript that checks the given input for a valid name, password length	
_	char. also write appropriate HTML code to implement this script?	[2017]
5.	What are the various features of JavaScript language? how server side program is useful?	[2017]
6.	Short note on:	[2017]
	a. Java script defraggingb. Major uses of java script on client side	[2017,2013]
7.	b. Major uses of java script on client side What is event driven program?	[2016] [2016]
8.	Define exception handling in JavaScript?	[2016]
9.	Describe the way of embedding java script into HTML documents?	[2016]
10.	What is java script and how it is different from java? Discuss the advantages	
	and limitations of java script?	[2016]
11.	What is java script default object?	[2015,2013]
12.	How you can create an array in java Script?	[2015,2013]
13.	A)Explain event handling in java script.	[2015,2013]
	B).write a java script program to change your background after each 10 seconds.	
14.	Explain difference between server side and client side programming?	[2015]
15.	5. What do you understand by multimedia. Discuss the tools and tags for embedding images , sound , video	
	and animation to web pages .illustrate the usage by writing a script?	[2014]
16.	Differentiate between JavaScript and java with example?	[2013]
	Differentiate between internal and external script with example?	[2013]
18.	Describe JavaScript function in details?	[2013]
19.	Explain in detail DOM event handling, also explain with an example of creating a text menu	
	NOTE: a context menu is one that is shown when the user right clicks anywhere in the document. [2013]	
20.	20. Write a script using JavaScript that checks the given input for a valid name, password length more than 6	
	characters and age field in the range of 1 to 99, also write appropriate HTML code to implement this	
	script?	[2013]
	···· F	[====]

21. What is script language? how many types of scripting in web technology? explain with suitable example?

[2013]
